

Phlebotomy Skills

Certificate

Summer Session

DIVISION OF HEALTH SCIENCES

This summer program is designed to prepare the students for a phlebotomy career in a variety of health care settings, including medical clinic labs, physician practice labs, or hospital-based labs. This is hands-on blood drawing training and minimally invasive point-of-care lab testing. It is appropriate for current health care workers to enhance their skills and make a career change to use this skill set. This program has asynchronous online lectures and an evening on-campus lab. An in-person capstone (160 hours) is offered during daytime hours, 8:00am-5:30pm, at a clinical affiliate. Many health students will utilize this summer course to fulfill contact hours needed for other programs.

ADMISSION REQUIREMENTS

High School diploma or equivalent.

MassBay Placement into English Composition 1 (EN101).

MassBay Placement into Intermediate Algebra (MA 098) or completion of introductory Algebra (MA 095) with a grade of C or higher. Successful completion of the Reading Assessment Test with a score of 246 or higher.

REQUIRED PRE-ENTRY DOCUMENTATION

To be eligible to enroll in PB106 Phlebotomy Capstone, which is required to complete this certificate program, all students must set up a Viewpoint account and upload all required health forms and documentation. (Medical clearance and proof of immunizations are required by state law and outlined in the Division of Health Sciences Handbook). All students must complete the CORI (Criminal Offender Record Information) form to authorize a search of conviction and pending criminal case information under Standard Required Level I by the DCJIS (Department of Criminal Justice Information Services) and SORI (Sexual Offender Registry Information) in accordance with state regulations. CORI and SORI results are confidential. If a CORI and/or SORI report is returned with finding(s), it may or may not prohibit progression in a Health Sciences Program. A National County Criminal Background check will be conducted as a part of the student's completion of the clinical requirements.
